Introducing NetApp Docs in GitHub 1

Introducing NetApp Docs in GitHub

We're pleased to announce the launch of NetApp's first GitHub-based documentation site—clouddocs.netapp.com—which currently hosts documentation for Cloud Manager and Cloud Sync.

The documentation is written in AsciiDoc (a lightweight format similar to Markdown), stored in GitHub repositories, and served as HTML content on docs.netapp.com.

This new documentation experience provides a few key benefits:

- Fast content updates

We're leveraging cloud and open source resources to support accelerated product release cadence.

- Community contributions

We've shortened the distance between NetApp authors and customers by providing the ability for anyone to recommend inline edits and enhancements.

- Responsive design

The site provides a responsive layout for any device that you use to access NetApp docs.

We plan to continually improve the site and add additional content over time. We hope that you like it and we look forward to any feedback that you might have.
